IN THE MATTER OF THE SUSPENSION :
OR REVOCATION OF THE LICENSE OF : Administrative Action
:
GUY WARREN HENRY, D.D.S. :
:
TO PRACTICE DENTISTRY IN THE : ORDER
STATE OF NEW JERSEY :
:
:

This matter was opened to the New Jersey State Board of Dentistry (Board) upon the filing of a Motion for Reconsideration of the Final Decision and Order in this matter entered by the Board on November 17, 1994. By that motion Pamela Mandel, Esq., on behalf of the respondent, sought to have the Board reduce the period of active suspension for respondent set forth in the Board's November 17, 1994 Decision and Order. Counsel for respondent relies upon portions of the November 29, 1994 report of an independent psychological evaluation of respondent prepared by Dr. Mark Glat in which Dr. Glat describes the dual relationship which has evolved between respondent and his treating psychologist and opines that such a relationship may have had a deleterious impact on respondent's treatment. Counsel for respondent also argues that respondent is not an addict, but an individual with a history of intermittent substance abuse. She claims that no patients have been affected by his substance abuse. Kathy Rohr, Deputy Attorney General, argued that respondent has not provided any new or compelling information in this matter to cause the Board to reverse or ameliorate its Decision and Order which was based on a finding

of a second relapse by respondent for the use of cocaine. The Board having considered the arguments of counsel for respondent and the Deputy Attorney General and based thereon finds that the information presented on behalf of respondent does not persuade it that there should be a modification or reduction of the period of active suspension set forth in the November 17, 1994 Final Decision and Order in this matter. Accordingly, the motion for reconsideration is denied.
